26 January 1954

MEMORANDUM FOR: C/TSS/TO

SUBJECT: Requirements for Electronic Cache Locator

REFERENCE: Memorandum from C/TSS/TO to C/WE dated 1 December 1953, Subject as Above.

1. A canvass of the operating branches of WE Division has provided the following answers and comments to the various questions asked in the referenced memorandum:

a. As described, the device appears to have little practical value because of its limited range. In addition, the high cost of the system possibly outweighs any advantage that might be gained from its use. It is also doubtful that the cache locator could be used to advantage under any type of enemy control, e.g., under conditions of occupation.

b. No comment.

c. None at the present time. In the case of one of our operational desks, the field is being queried for comments, and your staff will be advised in case of a requirement.

d. None at the present time.

2. This Division would appreciate being kept informed of any developments in the Electronic Cache Locator for future reference.
